

## **COURT CAPTAINS**

**After the Tournament Director has announced start time:**

It is the responsibility of the court captain to ensure:

1. That players for the first set enter the court.
2. That players only have a 3-minute hit prior to commencement of their first set and to ensure that no further hit ups are permitted.
3. That players for each following set are ready to commence play immediately upon completion of the previous set.
4. That the scores are entered after each set on the event drawsheet.
5. That they look out for any unused courts which may be used to ensure completion within the scheduled time frame.
6. That they make the tournament director aware if play is behind schedule and pass on to the players any changes which the TD may deem necessary to complete the event on schedule.
