### Some observations

The Championships trophy was won by TSNSW with a percentage of 65.08. The big participation winners are the players of TSWA who played a total of 3008 sets.

The variability between scores of competing teams, that is, the great winning margins between teams was the lowest in the past five years when a reduced number of teams have been participating. Winning margins in the order of 48 games to 5, 6 or 8 games occurred in approximately 40% of matches in recent years; however, this year such winning margins were few. It is believed that the organization and ranking of teams in 10 year age ranges is the major contributing factor.

Many players commented that the grading of teams in the ten year age ranges produced the best competition in the Teams Championships for many years.

Tennis Seniors Australia congratulates the winning state and all players who participated in the Teams Championships.

Another interesting observation was the number of scorecards which were not correctly completed. This year there was one only compared with 68 incorrectly completed cards at Wodonga in 2008.

All scores and final order of finishing in all sections can be found on [www.92computing.com.au](http://www.92computing.com.au) under the Australian Tennis Seniors Team Championships.

The list of names of players of all winning teams are listed below.
